Welcome Crown Trophy Stores!

Johnson Plastics Plus is Crown Trophy's trusted vendor for top quality equipment and supplies for engraving, sublimation, heat transfer and UV-LED printing!

With more than 40 years of experience, Johnson Plastics Plus has a history of helping businesses like yours succeed.

SAM WARDEN

Team & National Sales Manager

swarden@jpplus.com

DEAR CROWN TROPHY STORE OWNERS,

It's our pleasure to present the exclusive 2018 Crown Trophy Catalog from Johnson Plastics Plus! Inside you'll find many new products to help you business grow. We appreciate the opportunity to be a trusted partner for all Crown Trophy stores. Here are a few of the highlights of the Price Book:

- Johnson Plastics Plus has greatly expanded our product line, including the new Saddle Collection and Slate Collection as well as many new drinkware options. We're committed to offering new, relevant products to you and your customers.
- Our revamped website, www.jpplus.com, is faster than ever, utilizing new search technology to help you quickly and easily find the products you're looking for. The Crown Trophy page allows you to stay up to date on special offers, tech tips, and other information that has been tailored just for you.
- Our dedicated toll-free line for Crown Trophy Stores, 800-334-0427, is staffed by experienced Customer Service Representatives who are ready to help

We're excited to continue our relationship with Crown Trophy stores and are committed to being a trusted partner to help you grow your business. Please feel free to reach out to me personally if I can be of service or if you would like to offer any general feedback. Thank you for your continued business!

Sincerely,

A large, stylized handwritten signature of Sam Warden in black ink, written in a cursive script.

Sam Warden
National Sales Manager

Icons

LOOK FOR THESE KEY ICONS THROUGHOUT THE CATALOG DISPLAYING FEATURES OF SPECIFIC MATERIALS:

LASERABLE (LASER ENGRAVING)

Acrylic core materials with thin cap surfaces that can be easily engraved with minimal wattage at increased speeds. ABS materials are not recommended for lasering applications.

ROTARY ENGRAVABLE/ ROTATING CARBIDE ENGRAVING

This process is suitable for most commercial and industrial work. Unlike diamond-drag, rotary engraving is the only means of engraving plastic materials with controlled depth.

FRONT ENGRAVABLE

The cap layer is engraved or lasered through to expose the core layer, thus providing a color contrast between cap and core.

REVERSE ENGRAVABLE

Clear cap with microsurface or laminated core, machined from the reverse or backside of the material. Back-painting is a popular method of achieving contrast in color.

ADA/TACTILE

Matte, non-glare acrylic sheet materials specially designed to comply with the Americans with Disabilities Act (ADA) Federal regulations. Braille-engravable, routable sheets come in a wide variety of color combinations.

UV-LED PRINTABLE

Acrylic sheet materials developed to be print receptive with most UV-LED printing inks and light sources.

SUBLIMATION

Polyester coated substrates developed to accept unique sublimatable inks.

HEAT TRANSFER

Substrate that accepts toner from heat transfer sheets.

INDOOR USE

Signage produced for indoor applications where UV stability and weather-ability are not required.

OUTDOOR WEATHERABLE

The ability of plastic engraving material to withstand exterior weathering conditions. Although no specific life can be designated to any product, we recognize under normal conditions the material will not break down physically.

UV STABLE

The ability of the engraving material to maintain its colorfastness in UV conditions for a limited period of time.

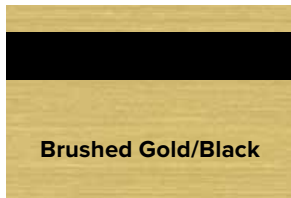

UL APPROVED

UL approval for components products - yellowcard E354751.

Value Flex

Value Flex materials are available in .020" x 12" x 24" sheets with adhesive.

FLEX01VA 12" x 24" .020"

FLEX02VA 12" x 24" .020"

DuraBlack

DuraBlack is a CO2 laser markable aluminum for durable marking in harsh environments. Meets performance requirements: MIL-STD-130 and MIL-DTL-15024F for resistance to weather, sunlight, abrasion, high temperature, salt-spray and fluid/chemical exposure. Great for bar coding, exterior tag and label identification. Lettering will be metallic white.

OKI Data Toner Transfer Printers

OKI provides innovative printing solutions designed to reduce costs, increase revenues and improve graphics quality in your business. For decades, OKI has pushed the boundaries of contemporary print conventions, delivering high-value solutions in unique print-intensive environments.

OKI Pro8432WT Textile Transfer Printer (White Toner)

Delivering High Definition quality with expanded color capabilities, the Pro8432WT printer produces vibrant, cost-efficient color heat transfers. This compact printer features white toner technology with solid opacity plus CMY color. It fits on a desktop and prints on transfer sheets up to tabloid size. A straight-through paper path reduces material handling and eliminates expensive special media printing processes.

Great for garment and hard surface decoration

OKI Pro6410 NeonColor Textile Transfer Printer

A revolutionary addition to OKI's color printer range, the Pro6410 NeonColor for the first time allows graphic arts departments and creative businesses to print free of the limitations of the standard CMY color spectrum. Delivering fast return-on-investment, the Pro6410 NeonColor combines High Definition LED color printing with ground breaking fluorescent toner technology, and interchangeable black or white toner to enable dazzling design capability from a compact reliable printer.

Great for neon/fluorescent garment decoration

OKI C711WT Textile Transfer Printer (White Toner)

Combining High Definition LED color printing with unique white toner technology, the innovative C711WT is an ideal alternative to slow, expensive and error-prone screen printing or inkjet processes.

Entry level garment and hard surface decoration

OKI C831TS Textile Transfer Printer

Designed specifically for simple, cost-effective transfer printing, the C831TS digital color printer delivers high-quality color graphics and text. The C831TS features High Definition print and Single Pass Color™ technologies, and produces impressive results. This compact printer prints beautiful color on transfer sheets used with a wide range of fabrics.

Small Format Sublimation Printers

Sublimation printer models come in a variety of print widths and ink configurations depending on the products you'll be making and your anticipated production volume. For small format, Johnson Plastics Plus carries three Virtuoso printer models including the SG400, SG800, and VJ628.

SG400 Virtuoso Printer

The Industry's first and only fully integrated desktop system explicitly designed for sublimation. The Sawgrass SG400 (Letter, A4).

- Lower imaging costs - More money in your pocket
- Produce personalized gifts and awards on demand
- Excellent printer for t-shirt printing
- Produces brighter, higher-definition images, with unsurpassed ease-of-use

Kit includes all start-up supplies, sublimation inks, and paper

SG800 Virtuoso Printer

The SG800 inkjet printer is built specifically for sublimation digital decorating. Offers 11" x 17" maximum (Tabloid, A3) print size, with a bypass tray option available to print up to 13"x19".

- Up to 1200 x 1200 dpi for dazzling HD photo-quality reproduction SubliJet-HD Ink
- Lower imaging costs - More money in your pocket
- Produce personalized gifts and awards on demand
- Excellent printer for t-shirt printing

Kit includes all start-up supplies, sublimation inks, and paper

Heat Presses

Johnson Plastics Plus offers swing-away heat presses from the leading brands in the industry, including Insta Graphic Systems and Geo Knight & Co.

INSTA 256 Swing-Away Heat Press 16" x 20"

The Insta 256 heat press machine has a 16"x20" platens that swings almost a full 180° to the right - providing unobstructed access to the lower platen while to load garments and place transfers.

- Crafted to distribute pressure throughout the entire platen evenly.
- Lightweight, durable construction

(1) year warranty on parts (lifetime on the heating element)

INSTA 288 Swing-Away Heat Press 20" x 25"

The Insta 288 heat press is a large manual machine sporting 20"x25" platens for ease of use with larger items and transfers. This manual heat press is so reliable that it can perform around the clock without sacrificing consistent results, precise temperature, and rapid heat recovery.

- Crafted to distribute pressure throughout the entire platen evenly.
- Lightweight, durable construction

(1) year warranty on parts (lifetime on the heating element)

Geo Knight Swing-Away Heat Press 16" x 20"

The Digital Knight DKS20 is a 16" x 20" swing-away heat press with a state-of-the-art control system and heavy-duty steel welded framework. Front or rear loading design for fast and efficient T-shirt production. The press is adjustable to accommodate material from fabric thickness all the way up to 2"-thick substrates!

- Fully digital temperature control and automatic digital timer

Lifetime warranty on heat platen

Geo Knight Swing-Away Heat Press w/Stand 20" x 25"

The Digital Knight DK25S is a 20" x 25" swing-away heat transfer press. The DK25S combines a heavy-duty solid steel industrial grade pressing framework with accurate and easy to use electronics to provide the operator with the best possible features and equipment needed for today's various heat transfer applications. It also features the universal stand with locking casters, and a 220V circuit breaker panel mounted to the stand.

Lifetime warranty on heat platen,
