

## Simply StandOffs Jewelry Holder

### INSTRUCTIONS

**This charm-ing project is sure to impress anyone who sets eyes on it.**

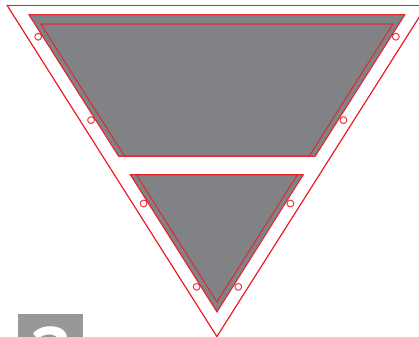

*We used 1/8" ColorShop Woods™ Raisin, 1/8" Reflexions Ice Silver Mirror, Cork Sheet and Simply Standoffs Matter Silver.*

1. Import your design and adjust power and speed settings.
2. Insert each material into the laser bed. Use the focus tool to adjust to the top of the material. Focusing should be done each with a new material.
3. Run the cut job for the woods, reflexions and cork sheet.
4. Tape together the larger triangle with the smaller triangle pieces, creating an insert for the reflexions and cork sheet to lay into. May need to add tape for extra security.
5. Secure together with standoffs.

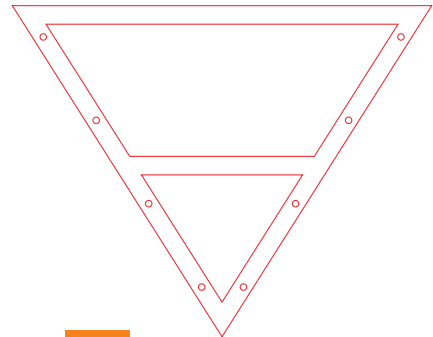

***Give any bedroom a little sparkle with this handy jewelry holder.***
