

The Naturals Laundry Sign

INSTRUCTIONS

Create an inspiring space to do laundry with this lettered sign.

We used 1/8" Carbon Ash/White plastic sheet from our Naturals collection.

1. Import your design and adjust power and speed settings.
2. Mask cutting side so the laser doesn't char it when cutting.
3. Insert material into the laser bed. Use the focus tool to adjust to the top of the material. Focusing should be done each time a new material is introduced.
4. Run the cut job file.
5. Carefully remove masking and place sheet back into laser bed.
6. Next, use the capture feature to align the engraving part
7. Run the engraving job file.
8. Once finished, give it a good once over in the sink with a soft bristle brush.

And there you have it! A nice sign to distract your friends and family from the laundry that needs folded!
