

# Leather Sheet Notebook

## INSTRUCTIONS

**Time flies when making this fun project to that holds all of your important notes and information!**

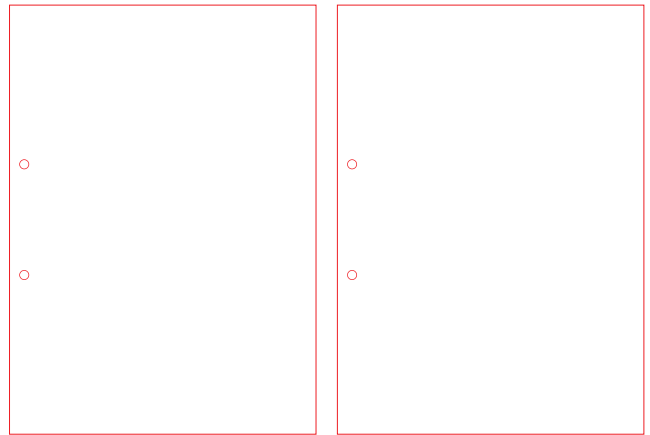

*We used our Leather Sheet for this bee-autiful notebook.*

1. Import your design and adjust power and speed settings.
2. Tape the full piece in place so it doesn't move.
3. Insert material into the laser bed. Use the focus tool to adjust to the top of the material. Focusing should be done each with a new material.
4. Run cut job file
5. Use the capture feature to overlay your engrave file.
6. Take cut pieces of paper, and sandwich them between your two pieces of engraved leather. Use two screw posts to hold the elements together.

**Carry around your new notebook, and never lose another thought or idea!**
